

Risk Management for Non-Risk Managers Workshop

TO REGISTER: t: +27 11 794 2151 e: info@hundfold.co.za

Theme:

- (a) You do not need to be a professional risk officer/manager to know how to understand and manage risks in your organization.**

Overview of this Course:

Today, risk management is no more an option or a fad, but a way of doing business credibly. Many failures and collapses of small and big business and non-business organisations happen every time and we hear of these from the press and featured in the electronic news.

These are the five common questions people like to ask about risk managers and risk management:

1. What is this function of risk management all about?
2. Who can be a risk manager? What does managing risks mean?
3. Is there any glaring difference between a risk manager and other ordinary manager who does other roles/functions in an organisation?
4. What are the various groups of risks in any organisation?
5. How can you, as a non professional risk manager, profile or scope/map your organization's various risks?

Objectives of this course

Participants will

- (i) know what risk management is all, about in their organizations
- (ii) understand how risk management functions add value to the management and board
- (iii) get clarifications on the myths and facts surrounding risk management
- (iv) be able to play the risk management roles without being a risk management professional
- (v) be able to apply and implement risk management programmes and activities for their organisations.
